PRESIDENT'S REPORT

For the year ended 31 December 2008

This report is presented along with the financial statements of the organisation for the year ended 31 December 2008. The financial statements have been prepared in accordance with the accounting policies set out in note 1 to the financial statements.

Objectives & Policies

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organization. We provide independent medical relief to victims of war, disasters, epidemics and other catastrophes in over 65 countries around the world. We strive to provide assistance to those who need it most, regardless of ethnic origin, religion or political affiliation.

To get access to and care for the most vulnerable, MSF's operational policies must remain scrupulously independent of governments, as well as religious and economic powers. We rely on private individuals for the majority of our funding. In the field, we conduct our own assessments, manage projects directly and monitor the impact of our assistance. We also campaign for improved access to medicines

for the most vulnerable groups and fund research into the development of drugs for neglected diseases. MSF is a volunteer organisation. Each year about 2,000 doctors, nurses, logistics specialists and engineers of all nationalities leave on field assignments to join around 23,000 staff in the countries of assistance.

Organisational Structure

Founded in Paris in 1971, MSF has become an international organisation with nineteen sections throughout the world. Each section is an association. Twice a year the president of each section attends the MSF International Council, an association registered in Switzerland. This Council has, amongst others, the responsibility to promote accountability and transparency within the MSF movement; these accounts are a reflection of that responsibility and reflect the financial situation of the movement as a whole.

All those working with MSF agree to abide by the principles of the International Charter of MSF as follows:

THE CHARTER OF MÉDECINS SANS FRONTIÈRES

Médecins Sans Frontières is a private international association. The association is made up mainly of doctors and health sector workers and is also open to all other professions, which might help in achieving its aims. All of its members agree to honour the following principles:

- Médecins Sans Frontières provides assistance to populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They do so irrespective of race, religion, creed or political convictions.
- Médecins Sans Frontières observes neutrality and impartiality in the name of universal medical ethics and the right to humanitarian assistance and claims full and unhindered freedom in the exercise of its functions.
- Members undertake to respect their professional code of ethics and to maintain complete independence from all political, economic and religious powers.
- As volunteers, members understand the risks and dangers of the missions they carry out and make no claim for themselves of their assigns for any form of compensation other than that which the association might be able to afford them.

2008: A year of challenges and achievements

In 2008, Médecins Sans Frontières remained committed to reaching people living in the midst of crisis and conflict. Providing medical care in conflict zones remains at the core of our work, but growing security threats to our staff and increased problems accessing people who need help make this task increasingly difficult.

The beleaguered residents of the Somali capital of Mogadishu faced nearly daily bouts of violence in 2008 and yet had almost no access to healthcare. MSF could not run proper ambulance services due to the security risk to our staff. Despite these difficulties, MSF did manage to treat 2,300 people wounded by gunshots or mortar rounds and to care for 10,000 children suffering from acute malnutrition in the camps for displaced people. But our work has also been marred by tragedy – the killing of three of our colleagues in Kismayo and the kidnapping (and release) of two colleagues in Bossaso – forced us to scale back health activities and withdraw all our international staff from the country in 2008. These incidents and ongoing insecurity mean that MSF is currently relying on the commitment of our national staff in Somalia to keep our projects running.

In Pakistan, fighting between government forces and militia has now displaced millions of people. Thousands have been caught up in the violence and require urgent medical care. Insecurity has raised huge challenges to providing services, including keeping our ambulance service running. Early this year, despite clear identification of our staff and vehicles, two MSF staff members traveling in an MSF ambulance were caught in crossfire in the Swat district and killed, forcing us to stop this ambulance service. Pakistan, like Somalia, is an example of how insecurity and the targeting of aid workers make working in many conflict zones extremely difficult.

In the Democratic Republic of Congo (DRC), we are still struggling to operate in the east of the country. Renewed fighting in North Kivu since 2007 has forced hundreds of thousands of people to flee to neighboring areas. These people have little access to health care, and are very vulnerable to diseases such as measles, malaria and cholera. In 2008, MSF worked in Goma and surrounding rural areas where we ran mobile clinics and hospitals that stayed open even when fighting swept through many locations.

Darfur remained one of the biggest humanitarian interventions for MSF in 2008, but we struggled to access certain places and faced ongoing administrative hurdles to deploy emergency services to zones affected by violence. Providing medical care to thousands of displaced people, running independent and reactive operations, and accessing those in most need, was constantly under threat. These restrictions and the way the Sudanese Government controlled the delivery of humanitarian aid escalated in 2009 with the International Criminal Court (ICC) indictment of President Bashir, who in retaliation expelled many non-governmental organizations, including two MSF sections, despite our total independence from the ICC.

This is not the only incident where governments have hindered our access to people in need. Gaza is a case in point: when the Israeli army attacked Gaza at the end of 2008, we had MSF teams already in the area providing psychological and medical support, including pediatric care. But the daily shelling kept our teams virtual prisoners

in their own homes and it was all but impossible to increase surgical capacity because MSF doctors outside Gaza were not allowed in, despite repeated calls for access.

Carrying out independent, medical humanitarian action remains an ongoing challenge in some countries. For example after more than eight years of emergency programmes devoted particularly to nutrition, MSF's work in Niger was threatened in July by the decision of the authorities to suspend us. This decision was mainly due to the desire of the authorities to re-integrate such activities into the national programme and to avoid seeing independent actions and public awareness efforts around malnutrition in the country. After two months of discussions with them, MSF was able to partially restart its activities. In total for 2008, MSF treated more than 14,000 acutely malnourished children and provided more than 70,000 children with a monthly distribution of a nutritional food supplement.

Fortunately, thanks to the commitment of our staff, our experience and our ability to act at short notice, in 2008, worldwide MSF managed to deliver medical care – including providing 8.8 million consultations, treating over 200,000 severely malnourished children and carrying out 47,500 surgical interventions – to people in 64 countries.

In 2008, MSF also provided emergency care in the aftermath of natural catastrophes. We helped half a million survivors of Cyclone Nargis, which swept through Myanmar's Irrawaddy Delta in May. MSF was already working in the country and within 48 hours of the disaster our teams were in the cyclone-affected Delta region. More than 750 MSF staff worked on rotation, and we offered healthcare, food, shelter and psychosocial support to many remote communities whom the large international response had overlooked.

Health crises also played a major role in our 2008 operations. Fueled by a collapsed healthcare system and an almost complete breakdown in water and sanitation infrastructure, Zimbabwe's cholera epidemic threatened to spiral out of control at the end of the year. For months MSF was one of the only organisations with access to all cholera-affected areas and we treated majority of the patients.

In Southern Africa, where TB/HIV co-infection is endemic, MSF stepped up efforts to increase access to diagnosis and treatment. TB rates alone have more than tripled in countries where HIV prevalence is high. Worldwide, an estimated one third of all HIV sufferers have TB, but only one per cent receives treatment. Most don't get tested for TB and even if they did, the standard diagnostic method is a century old and is ineffective for most people living with HIV. In addition the current treatment protocols are not easy to use for HIV patients under ARV treatment. In 2008, we made repeated calls to governments and donors to invest in TB research and development to get new diagnostic and therapeutic tools – we estimate that current investment falls at least four times below what is needed to combat the resurgence of this deadly, but treatable disease.

Over the years we have been able to develop the means and funds to provide emergency healthcare where it is needed most in a cost effective manner. But today, the global financial and economic crisis has led us to take additional steps to control our expenditure. The decisions we have made do not affect our field operations – in fact, they

ensure that we will continue to provide the same volume of care to people at increasingly high standards. We are rationalizing the technical and logistical support we provide from our MSF national headquarters. And our five operational centres that run over 350 programmes for MSF are now more even interconnected and providing services that benefit our operations worldwide.

Last year, we also created an 'international innovation fund' that promotes innovation in our field activities by rewarding operational strategies and research that improve the way we meet healthcare needs in the places we are working. In 2008 this fund supported work on the use of adapted diagnostic tools to diagnose malnutrition in Western Africa and TB in people living with HIV in eastern Africa.

Innovation is the way forward for MSF. We are constantly seeking better ways to provide the highest quality of medical care to our patients. And we are committed to putting those innovations into practice in emergency situations worldwide. This year, more than ever, we remain grateful to our donors – 3.7 million individuals worldwide – who choose to support us.

In 2009, we will continue to overcome barriers in order to assist people trapped in conflict situations and be reactive to natural disasters and health crises. A special emphasis will be put on nutrition and vaccination, which have been internationally agreed as medical priorities for MSF. We will also persevere in defending the necessary space for independent humanitarian action based on needs and regardless of political agendas.

FINANCIAL REPORT

Combined Accounts 2008

MSF is pleased to present its audited combined financial statements. The combined accounts represent an aggregation of the financial statements of 19 MSF sections worldwide, together with the financial statements of 10 satellite organisations and the international office of MSF. The combined financial statements provide both a view of MSF's work internationally and also a means of transparency and accountability.

Income

2008 saw an increase in income for MSF internationally compared with 2007. Total incoming resources for 2008 were 83 million higher than in 2007. This increase was mainly due to continued & growing support of individual donors and an increase of income from Private & Public Institutions. This represents an annual increase of 14%. We would like to take this opportunity to thank all our donors for their continued support, without whom we would be unable to work for the populations that we serve.

Expenditure

The total expenditure in 2008 was € 648 million, which represents an increase of € 71 million over 2007, which equates to 12% growth in activities. This expenditure can be broken down into two main categories, being social mission and other expenses. The table below breaks down these categories still further.

	2008 M€	2007 M€
Expenditure Social Mission		
Programmes	429	375
Headquarters programme support	66	64
Témoignage/awareness raising	25	19
Other humanitarian activities	7	9
Total Social Mission	527	467
Other expenses		
Fundraising	81	77
Management and general administration	40	33
Total other expenses*	121	110

*(there was also a payment of income tax € 89k in 2008 and € 97k in 2007)

The result of the above is that MSF's total expenditure in 2008 is represented by 81% spent on social mission and 19% on other expenses.

Result for the year and reserves policy

The result for 2008 shows a surplus after adjusting for exchange gains/losses of € 22.5 million. MSF has a reserves policy, at an international level, of holding a minimum of 3 months and a maximum of 12 months of total expenditure as retained earnings. The level as at 31st December 2008 was approximately 8 months (see 2.14 of the notes to the financial statements).

Christophe Fournier, MD
President, MSF International Council

AUDITOR'S REPORT

For the year ended December 31, 2008

To the Board of MSF International,

Report on the International Combined Financial Statements

At your request, we have audited the accompanying international combined financial statements of MSF ("the Movement"), which comprise the international combined balance sheet as at December 31, 2008, and the international combined income statement, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

MSF's Management is responsible for the preparation and fair presentation of these international combined financial statements in accordance with the basis of preparation set out in Note 1 to the financial statements. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these international combined financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the international combined financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the accompanying international combined financial statements have been prepared, in all material respects, in accordance with the accounting policies described in Note 1 to the international combined financial statements.

STATEMENT OF CASH FLOWS

In thousands of euros

Cash flows from humanitarian and functioning activities

1. Cash flows from private donors

- Private income
- Elimination of expenses and income with no impact on cash flows or not related to humanitarian and functioning activities
- Permanently restricted contributions and income
- Variation in working capital requirements
- Change in receivables from private donors
- Change in deferred income on private grants
- Change in unspent donor-designated/restricted funds

2. Cash flows from public institutional agencies

- Public institutional income
- Variation in working capital requirements
- Change in public institutional assets
- Change in public institutional liabilities

3. Others cash flows from humanitarian and functioning activities

- Other income
- Social mission expenditure
- Others expenses
- Elimination of expenses and income with no impact on cash flows or not related to humanitarian and functioning activities
- Permanently restricted contributions and income
- Depreciation, amortization, provisions
- Write-off of non-current assets
- Proceeds on disposals of non-currents assets
- Investment subsidies as income
- Variation in working capital requirements
- Change in other receivables and current assets
- Change in other current liabilities

Net cash provided by/(used for) humanitarian and functioning activities (A) = 1+2+3

Cash flows from investing activities

Notes to the Financial statements

INTRODUCTION

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organization that delivers emergency aid to people affected by armed conflict, epidemics, healthcare exclusion and natural or man-made disasters. MSF combines the provision of emergency medical care with a commitment to speaking out about the suffering witnessed and the obstacles encountered in providing assistance.

MSF's core work is providing emergency medical assistance to the most vulnerable people in crisis because of armed conflict.

MSF also provides medical care to help people survive in catastrophic situations where communities and health structures may be overwhelmed. MSF provides assistance during epidemics, following natural disasters, and to people who are excluded from healthcare.

When MSF witnesses serious acts of violence against or neglect of individuals or groups, we may speak out publicly based on eyewitness accounts, medical data and experience.

MSF is an independent and self governed organization. Our actions are guided by medical ethics and the principles of neutrality and impartiality. MSF offers assistance to people based only on need and irrespective of race, religion, gender or political affiliation.

MSF strives to ensure that it has the power to evaluate medical needs freely, to access populations without restriction and to control the aid it provides directly, giving priority to those in most grave danger. MSF does not take sides in armed conflict and demands unhindered

access to patients and the space it needs to carry out emergency medical interventions.

The work of MSF is carried out by thousands of national and international health professionals, logistical and administrative staff. Together they manage projects in over 65 countries worldwide.

Médecins Sans Frontières is comprised of 19 national sections in Australia, Austria, Belgium, Canada, Denmark, France, Germany, Greece, Holland, Hong Kong, Italy, Japan, Luxembourg, Norway, Spain, Sweden, Switzerland, the United Kingdom, the United States, and an international office in Geneva.

The search for efficiency has led MSF to create 10 specialized organizations - called "satellites" - in charge of specific activities such as humanitarian relief supplies, epidemiological and medical research studies, and research on humanitarian and social action.

These satellites, considered as related parties to the sections include: MSF-Supply in Belgium, MSF-Logistique, Epicentre, Fondation MSF, Etat d'Urgence Production, MSF Assistance, SCI MSF, SCI Sabin in France, Artze Ohne Grenzem Foundation in Germany and MSF Enterprises Limited in the United Kingdom.

1 SIGNIFICANT ACCOUNTING POLICIES

A combination aggregates the financial statements of several separate entities without investment relationships into a single group whereas a consolidation collates different affiliates of a single parent entity in its financial statements.

Specific methods used for combined accounts

Equity accumulation

Since the first combination of an entity does not result from the purchase of shares, combined equity represents the aggregated equity capital and the aggregated other equity from the combined entities and the group equity proportion from the companies which have been previously consolidated. Investments between group entities are eliminated against equity.

Minority Interests

When equity and other equity from combined entities are aggregated, minority interests cannot be recognised. Minority interests from entities consolidated are presented separately on the liability side of the combined balance sheet.

Initial measurement of the combined entities' assets and liabilities

Since the first combination of an entity does not result from the purchase of shares but from a pooling of economic interests, neither goodwill nor fair value adjustments exist. Assets and liabilities of each combined entity are initially measured at net book value, adjusted according to the group accounting principles at the date of the first combination, by distinguishing gross value, depreciation and impairment. The variance due to the harmonization of the group accounting principles is added or deducted from the combined equity.

Subsequent measurement of the combined entities' assets and liabilities

After the first combination, capital gains or losses, provision allowances and reversals contribute to the combined surplus or deficit. However, harmonized values which prove to be unjustified due to an error in the first combination have to be corrected, and result in a retrospective modification of combined equity.

All the previously listed entities are included in the combination perimeter. The resulting combined financial statements comprise:

- a statement of financial position,
- a statement of financial activities,
- a statement of functional expenses,
- a statement of cash-flows,
- a statement showing changes in retained earnings and equities,
- the notes to the financial statements.

The combined financial statements have been prepared in accordance to and comply with the MSF accounting policies. Although the International Accounting Standards (IAS) - also called International Financial Reporting Standards (IFRS) - do not contain specific guidelines for not-for-profit and non-governmental organizations concerning the accounting treatment (of non-reciprocal transfers, e.g. donations, in particular) and the presentation of the financial statements, MSF accounting policies are in compliance with most of the IFRS as adopted by the International Standards Board (IASB) and interpretations issued by the Standing Interpretations Committee (SIC) of the IASB.

Main deviations to the IFRS relate to IAS 16 and IAS 19.

1.1 Basis of presentation

The financial statements are presented in euros, rounded to the nearest thousand. They are prepared on the historical cost convention, revalued at their fair value, with the exception of tangible and intangible assets. The financial statements have been prepared and presented according to the principles of fair presentation, accruals, matching, going concern, consistency and prudence.

Figures are rounded and therefore may vary slightly from the amounts presented in other documents or rounding off addition differences may exist.

1.2 Foreign currency translation

The combined statement of financial position is translated into euros at the year-end rate. The combined statement of financial activities and statement of functional expenses are converted at the average rate for the current year. The main exchange rates compared to euro are the following:

	Closing Rate 2008	Average Rate 2008	Closing Rate 2007	Average Rate 2007
AUD	2.03	1.74	1.68	1.63
CAD	1.70	1.56	1.44	1.47
CHF	1.49	1.59	1.65	1.64
DKK	7.45	7.46	7.46	7.45
EUR	1.00	1.00	1.00	1.00
GBP	0.95	0.80	0.73	0.68
HKD	10.79	11.45	11.48	10.69
JPY	126.14	152.45	164.93	161.25
NOK	9.75	8.22	7.96	8.02
SEK	10.87	9.62	9.44	9.25
USD	1.39	1.47	1.47	1.37

1.3 Change in accounting policies

The 2008 financial statements do not contain any changes in accounting policies compared to 2007.

1.4 Intangible assets and property, plant and equipment

Intangible assets are recorded at historical value and depreciated on a straight-line basis over a 3-year period. Property, plant and equipment are recorded at their acquisition cost, including incidental expenses. They are depreciated using the straight-line method with estimated useful lives, using the component approach, as follows:

- Land: no depreciation,
- Buildings: 20 to 50 years,
- Fixtures: 5 years,
- Furniture, computers, machinery and equipment: 3 to 5 years,
- Other tangible assets: 3 to 10 years.

The purchase cost of fixed assets used in the field for programme purposes is charged directly to programme expenses and not depreciated, because of their accelerated useful life.

Finance leases

Assets acquired under long term finance leases are capitalized and recorded in the statement of financial position as tangible fixed assets. They are depreciated over the shorter of their estimated useful life and the lease term. The associated obligations are included in financial debts.

1.5 Financial assets

Long-term investments are stated at fair value. Financial Assets are initially recognized at fair value, net of transaction costs through the Statement of Activities.

Investments are recorded as financial assets at fair value through profit and loss and classified as current assets with any resultant gains or losses recognized in the statement of income and expenditure. Other financial assets are recorded at fair value

1.6 Inventories

Inventories held at headquarters and satellites are recorded at weighted average of purchase prices. All goods and materials present in the field are recognized as expenditure when transferred from headquarters and satellites to the field or when bought locally. Appropriate inventory reserves are recorded based on stock coverage, expiration date and damaged items.

1.7 Receivables and other assets

Grants receivable correspond to funds owed to MSF by third parties according to a formal agreement. They result from the differences between the cumulative allowable expenses incurred and the funds received for each of these agreements. Contributions receivable include donations sent by donors before the closing for which the corresponding cash has been collected by MSF on the following months after the closing. They are accounted for at fair value, at their cost net of impairment. Legacies & bequests are accounted for on a cash basis and are therefore not included in receivables (see 1.13 Legacies and bequests). Other receivables and other assets are recorded at their fair value.

1.8 Cash and equivalents

MSF considers short-term deposits, cash in headquarters and cash in the field as cash and equivalents. Amounts are valued at fair value through the statement of activities category. For the statement of cash-flow, overdrafts are included as a negative component of cash and equivalents.

1.9 Provisions and contingent liabilities

Provisions and contingent liabilities are valued at best estimate when MSF has a legal or constructive obligation as the result of a past event, and if it is probable that an outflow of assets will be required to settle the provision.

1.10 Financial debts, accounts payable and accrued expenses

The financial debts are recorded at fair value.

Trade accounts payable to suppliers are recorded on an invoice basis when the invoices are received before year-end, or valued at best estimate if no invoices are received before year-end. Staff costs and litigations on the field remain in books on cash basis when there is no sufficient information available to evaluate the amount of any financial impact at the closing. No accruals for paid vacation of national

field staff have been booked as of December 31, 2008, except for paid vacation of MSF Switzerland national staff, since no reliable information was available as of 31 december 2008. Grants payable and other debts are accounted for at their nominal value.

1.11 Deferred income

Deferred income on public institutional and private grants are recognized on the basis of the difference between the cash received and the cumulative allowable expenses to date for each of the formal agreements concerned. Unspent donor-designated/restricted donations represent contributions received with a specific earmarking, which have not been spent at the year-end.

1.12 Retained earnings and equities

Retained earnings represent cumulated surpluses and deficits of current and previous years. They are compromised of:

- Permanently restricted funds, which may be capital funds, where the assets are required by the donors to be invested or retained for actual use, rather than expended, or which may be the minimum compulsory level of retained earnings to be maintained in some countries.
- Unrestricted funds, which are unspent donor non-designated funds to be spent at the discretion of MSF's trustees to further our social mission.

Other retained earnings and equities represent foundations' capital, combination restatements between certain sections and satellites and translation adjustments (for the combination restatements related to exchange rate differences). Unspent donor-designated/restricted funds are treated as deferred income at the year end (see 1.11 above)

1.13 Income

MSF's income comprises contributions from the public generosity, and public institutional bodies, as well as revenues from other activities. Private income is provided by individuals and private organisations (companies, trusts and foundations, and other not-for-profit organisations). Public institutional income represents grants (i.e. contributions based on contracts for specific projects), subsidies and donations received or pledged directly from / by public institutional bodies such as governments or multi-lateral agencies. Income from other activities is mainly from merchandising, equipment and services provided to other organizations, and financial transactions.

Restrictions

Income is considered restricted only when subject to a donor-imposed restriction. Donors include all the external parties which contribute to MSF's resources. A donor-imposed restriction is a stipulation and limitation in the use of contributed assets or monetary donations. The restriction can be limited to purpose (country, project, type of intervention, specific activities), time or specific wishes (vaccines...). Donations with donor-imposed restrictions are reported as restricted for their full amount. Unspent restricted donations are carried forward as deferred income. Grants are reported as restricted for the allowable expenses incurred in the current year.

Donations

Donations are based on non-reciprocal transfers of cash or other assets, or cancellation of liabilities. They are recognised upon cash receipt.

Legacies and bequests

If restricted by a donor's will for use by the organisation (selling or distribution forbidden), legacies and bequests are accounted for as restricted income and as the appropriate nature of asset (building, other financial assets, other inventories) when accepted by the board for their estimated amount. If not restricted by donors, legacies and bequests are accounted for upon realisation (i.e. cash receipt).

Grants

Grants are recognised as income for the allowable expenses incurred in the current year. At year-end, the difference between the cash received and the cumulative expenses incurred is accounted for as grants receivable or deferred income.

In-kind donations and services

In-kind donations and services are not valued and therefore not accounted for in the statement of financial activities. As MSF is an international movement, an aggregate of the in-kind contributions and services valued at average market prices or valued at the market prices in force in the different countries would have been meaningless and misleading in terms of comparability.

The act of volunteering to work in MSF's humanitarian projects is not valued because it represents one of the bases of the MSF charter and principles. From a volunteer's standpoint, this involvement is a personal choice that a valuation at a market price denies. From MSF's standpoint, this is also a choice made in accordance with its principles, and a monetarisation of this involvement would not represent a fair indicator of the services provided by the volunteers.

1.14 Expenditure

Expenses are allocated according to the full cost method. The principle of the full cost method is to collate under each expenses' category, not only the direct costs that are specifically associated with it (direct allowable costs), but also an apportionment of the indirect costs (overheads). Therefore all expenditure categories include salaries, direct costs and allocated overheads (building costs, depreciation...).

1.15 Financial Risk Management

Foreign Currency Risk

Some MSF entities use forward foreign exchange contracts to hedge the exposure to foreign exchange risks arising from significant internal transfers denominated in a different currency to the one in which the expenditure will be incurred. The MSF logistics satellites also use forward foreign exchange contracts to hedge against the risks arising from significant purchases in currencies different from those in which they are selling their goods.

Interest Rate Risk

MSF has no significant long term loans.

Credit Risk

The receivables are mostly with governments with high credit ratings, where credit risk is low. Investments are generally in liquid securities and with counterparts that have a high credit rating. Other positions are not material or are covered by provisions. At the balance sheet date there were no significant concentrations of credit risk.

Liquidity Risk

Due to the nature of MSF's funding, together with its reserves policy, the liquidity risk is insignificant.

1.16 Employee Benefits

The nature of pension plans for headquarters and international staff employees depends on what is the normal custom for the contracting country of the employee. Pension obligations are usually covered by an independent organisation with a defined contribution plan. Contributions to a defined contribution pension plan are recognized as an expense in the statement of financial activities in the year in which they are incurred.

In the countries where there are defined benefit plans, MSF initiated a process in order to evaluate the potential liabilities based on an actuarial method compliant with IAS 19. It is expected that the post employment benefits estimations will be available before the closing on the current year. Nevertheless and due to the fact that the staff turnover is high and the population is young, the liability is considered as not significant.

2 STATEMENT OF FINANCIAL POSITION

2.1 Intangible assets

Mainly comprises software and licenses.

	Opening	Additions	Disposals	exchange gain / loss	Foreign Other movements	Closing
Intangible assets - gross value	10,114	1,285	-110	137	12	11,437
Depreciation	-7,276	-1,513	56	-52	-1	-8,787
Intangible assets - Net	2,838	-229	-54	84	10	2,650

2.2 Property, plant and equipment

Mainly comprises the head offices of some of the entities.

	Opening	Additions	Disposals	Foreign exchange gain / loss	Other movements	Closing
Land	5,781	-	-	120	-	5,901
Buildings	23,784	26	-14	574	-	24,369
Fixtures	7,097	509	-48	267	-6	7,819
Furniture	4,082	228	-17	46	8	4,346
Computers	8,747	1,004	-324	56	-10	9,474
Machinery & equipment	2,240	263	-71	-11	25	2,446
Other tangible assets	1,494	334	-198	-28	5	1,607
Property, plant & equipment - gross value	53,226	2,364	-672	1,024	22	55,963
Depreciation	-24,559	-3,358	643	-303	214	-27,362
Property, plant & equipment - Net	28,668	-994	-29	721	236	28,601

Finance leases

At the end of the year, the net value of capitalised assets stands at 1,639 thousand euro, and capitalised lease obligations at 2,302 thousand euros. The total reimbursements for the current year amount to 350 thousand euro, and the rent expenses to 440 thousand euros.

2.3 Financial assets

Financial assets consist primarily of loans, investments and other financial assets such as deposits. They are intended to be held for more than one year.

	Gross value	Provision	Net value 2008	Net value 2007
Loans	7	-7	-	-
Long-term investments	4,427	-1	4,426	4,256
Other financial assets	1,372	-8	1,363	1,383
Total financial assets	5,805	-16	5,789	5,639

Breakdown by maturity date of the net other financial assets is as follows:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2008
Other financials assets - Net	581	468	314	1,363

2.4 Inventories

	Gross value	Provision	Net value 2008	Net value 2007
Medical and non-medical relief goods	22,259	-300	21,958	19,734
Other inventories	352	-	352	312
Total inventories	22,611	-300	22,310	20,046

2.5 Grants receivable

	Gross value	Provision	Net value 2008	Net value 2007
Grants receivable from private donors	8,359	-7	8,351	3,627
Grants receivable from public institutional agencies	13,502	-333	13,169	13,194
• ECHO and EU institutions	4,698	-333	4,365	3,375
• UN institutions	229	-	229	1,335
• American governments	45	-	45	-
• Asian governments	-	-	-	-
• EU European governments	6,922	-	6,922	8,174
• Non EU European governments	1,553	-	1,553	248
• Oceanian governments	-	-	-	-
• Other governments	55	-	55	62
Total grants receivable	21,860	-341	21,520	16,822

All these grants are considered to be received within the following year.

2.6 Contributions receivable

At December 31st 2008, the committed outstanding amount represents 18,329 thousand euro and is considered to be received within the following year.

2.7 Other receivables

Other receivables mainly relate to services provided and goods sold to other organizations. At December 31st 2008, the committed outstanding amount represents 3,939 thousand euro and is considered to be received within the following year.

2.8 Other assets

Other assets mainly include prepaid expenses. Breakdown by maturity date is as follows:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2008
Other assets	7,084	-	99	7,183

2.9 Cash and equivalents

	2008	2007
Short-term deposits	228,422	224,662
Cash in headquarters	123,045	102,822
Cash in the field	24,132	22,687
Cash & equivalents	375,599	350,172

2.10 Provisions and contingent liabilities

The following table shows the changes in provisions and contingent liabilities of the period:

	Opening	Additional provisions	Unused Amounts used	Foreign amounts reversed	exchange gain / loss	Other movements	Closing
Provisions and contingent liabilities	3,387	2,072	-300	-594	46	-	4,610

€ 2.4m of the Provisions and Contingent Liabilities relates to tax assessments received by MSF relating to our activities in the field. MSF is currently challenging the basis of these particular assessments.

The remaining € 2.2m of Provision and Contingent Liabilities covers various different risks for which MSF has a constructive obligation.

2.11 Financial debts

Their breakdown by maturity date is the following:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2008	Total 2007
Borrowings and loans	-14	-	-	-14	4
Capitalized lease obligation	383	1,369	550	2,302	2,564
Financial Debts	369	1,369	550	2,288	2,569

2.12 Accounts payable and accrued expenses

Accounts payable and accrued expenses are composed of amounts owed to suppliers, employees and tax authorities, and of grants pay

able to external organizations. The details of the accounts payable and accrued expenses are disclosed below:

	2008	2007
Trade accounts payable and accruals	29,817	24,597
Accrued personnel expenses	11,621	11,515
Accrued taxes and income tax payable	1,746	1,792
Public institutional grants payable	826	33
Private grants payable	28	23
Other liabilities	10,736	4,695
Accounts payable and accrued expenses	54,774	42,654

Their breakdown by maturity date is the following:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2008
Accounts payable and accrued expenses	53,035	48	1,691	54,774

2.13 Deferred income

	2008	2007
Deferred income on public institutional grants	5,529	3,958
Deferred income on private grants	871	440
Unspent donor-designated/restricted funds	2,346	2,331
Other deferred income	711	158
Gross value of investment subsidies	2,413	2,775
Deferred income	11,872	9,662

Its breakdown by maturity date is the following:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2008
Deferred income	11,872	-	-	11,872

The cumulative unspent donor-designated funds will be strictly spent in accordance with the donors' desire (e.g. specific countries or types of interventions) as the need arise.

The following schedule shows their year-end position:

	Opening	Raised in previous years and spent in 2008	Raised in 2008 but not spent	Foreign exchange gain / loss	Other movements	Closing
Algeria	19	-	-	-	-	19
Angola	3	-	2	-	-	5
Bangladesh	3	-3	-	-	-	-
Chad	2	-2	-	-	-	-
Congo, Democratic Republic of the	18	-19	146	1	-	146
Haiti	12	1	9	-	-	21
Indonesia excluding Tsunami	1	-1	-	-	-	-
Iran	63	-	-	-	-	63
Iraq	-	1	-	-	-	1
Lebanon	1	-	1	-	-	2
Madagascar	1	-	1	-	-	1
Myanmar/Burma excluding Tsunami	-	-	-	18	264	283
Pakistan	2	-2	-	-	-	-
Peru	37	-	-	-	-	37
Sierra Leone	-	3	-	-	-	2
Uganda	26	-26	-	-	-	-
Uzbekistan	-	3	-	-1	-	3
Zambia	215	-215	-	-	-	-
Zimbabwe	-	-	17	-1	-	16
Other countries or restrictions	1,929	-264	99	-19	-	1,746
Unspent donor-designated/restricted funds	2,331	-521	274	-3	264	2,346

Other countries or restrictions represent either the countries for which restricted funds lower than one thousand euro remain unspent, or transversal restrictions. They mainly include:

- a balance of 279 thousand euro from an original contribution of 841 thousand euro earmarked to the purchase of meningitis

vaccines. These vaccines have actually been bought but only partly used at year-end. The donation is recognized as income as and when the vaccines have been consumed.

- annuity trusts of 1,433 thousand euro.

2.14 Retained earnings and equities

MSF's retained earnings have been built up over the years by surpluses of income over expenses. As at Dec 2008, the available portion (unrestricted funds less the translation adjustment) represents 7.6 months of activity. The purpose of maintaining retained earnings is to meet the following needs: future major humanitarian emergencies for which sufficient funding cannot be obtained, and/or a sudden drop of private and/or public institutional funding, and the sustainability of long-term programmes (e.g. ARV treatment programmes), as well as the pre-financing of operations to be funded by forthcoming public fundraising campaigns and/or by public institutional funding.

3 STATEMENT OF FINANCIAL ACTIVITIES

In thousands of euros

3.1 Income

3.1.1. Private income

Income from individuals includes:

	2008	2007
Donations	422,275	389,628
Legacies and bequests	87,719	49,148
Membership fees	124	129
Individuals	510,118	438,906
Donations and grants from private institutions mainly come from the following sources:		
Companies	24,382	26,557
Trusts & foundations	28,723	32,295
Lottery & special events	21,282	18,127
Joint-appeals	457	432
Other private institutions	2,462	2,416

Donations and grants from private institutions

77,307 **79,827**

3.1.2. Public institutional income

The table below presents the breakdown of donations and grants awarded by public institutional bodies classified by geographical origin:

	2008	2007
ECHO and EU institutions	17,510	4,793
UN institutions	1,807	1,710
American governments	2,306	2,746
Asian governments	-	-4
EU European governments	37,424	33,250
Non EU European governments	8,668	11,703
Oceanian governments	-	-
Other governments	-	7

Public institutional income

67,714 **54,204**

3.1.3. Other income

	2008	2007
Interest/investment income	10,668	10,609
Merchandising	739	967
Equipment & services sold to other organizations	4,443	3,961
Other revenues	4,469	4,251

Other income

20,319 **19,788**

3.2 Expenditure

Programme expenses by nature and continent

	Africa	America	Asia	Europe	Oceania	Unallocated	Total 2008	Total 2007
International staff	66,203	6,225	18,065	2,059	519	4,543	97,616	93,532
National staff	82,738	11,283	19,148	5,176	174	677	119,194	106,781
Operational running expenses	15,096	1,161	3,225	967	96	607	21,151	19,991
Medical and nutrition	65,283	4,464	23,028	2,034	141	470	95,421	76,701
Logistics and sanitation	19,684	1,356	7,195	191	42	185	28,653	22,455
Transport, freight, storage	47,349	1,907	8,916	812	143	321	59,448	48,702
Training and local support	2,533	142	1,236	116	5	3	4,035	4,062
Consultants and field support	1,593	204	466	627	26	-249	2,667	2,304
Private and public institutional grants	-	-	-	96	-	1	97	24
Miscellaneous	593	14	51	44	6	242	949	887
Programmes	301,073	26,756	81,330	12,122	1,151	6,800	429,233	375,439

Headquarters programme support

Headquarters programme support relates to headquarters expenses incurred in order to carry out MSF humanitarian operations (e.g. project design, monitoring and evaluation, recruitment of expatriates, activities designed to improve the quality and the effectiveness of MSF operations).

Témoignage / awareness-raising

Témoignage / awareness-raising activities comprise expenses incurred by MSF in an educational manner to further its social mission. They represent the situations where MSF acts as a witness and speaks out about the plight of the populations it serves through trying to mobilise the international community and by issuing information publicly in order to inform, put pressure on responsible actors and stimulate action.

Too often in the countries where MSF works, we cannot treat our patients because the medicines are too expensive or they are no longer produced. Sometimes, the only drugs we have are toxic or ineffective, and nobody is looking for a better cure. As a medical humanitarian organisation, it is fundamentally unacceptable to MSF that access to essential medicines is becoming almost impossible, particularly for the common global infectious diseases. Since 1999, MSF has been campaigning internationally to find long-term, sustainable solutions to this crisis. The Access to Essential Medicines Campaign is pushing to lower the prices of existing medicines, to bring abandoned drugs back into production, to stimulate research and development for diseases that primarily affect the poor, and to overcome other barriers to access.

In 2008, the Access to Essential Medicines Campaign contributed 12% to the témoignage / awareness-raising expenses.

	2008	2007
Access to Essential Medicines Campaign	2,635	2,698
Other témoignage campaigns and expenses	21,710	16,785

Témoignage / awareness-raising

24,667 **19,420**

Other humanitarian activities

The other humanitarian activities consist primarily of the cost of the goods sold and services provided to other organizations, as well as MSF's contribution to the Drugs for Neglected Disease initiative, also called DNDi (cf. note 5.1).

Fundraising

Fundraising expenses represent the costs incurred for raising funds from all possible sources of income, be they private or public institutional.

Management, general and administration

Management, general and administration represents the expenses incurred for the management and the administration of the organisation. They consist primarily of expenses associated with executive management, headquarters finance and human resources management, internal communication and the associative life of the organisation.

In July 2004, the Government of the Netherlands filed a claim against MSF Switzerland in Geneva's First Instance Tribunal. The claim concerned the reimbursement of a EUR 1 million ransom paid by the Government of the Netherlands for the liberation of Arjan Erkel, the former MSF Switzerland programme head in Dagestan, who was kidnapped on August 12, 2002, and freed on April 11, 2004.

The Government of the Netherlands ordered MSF Switzerland to pay an amount of EUR 770,000, a sum producing an interest of 5% as of 15th June 2004. In a judgment handed down on 15th March 2007, the First Instance Tribunal rejected the claim of the Government of the Netherlands. This judgment was confirmed by the Civil Court of Justice Court of the Canton of Geneva on 22nd February 2008.

The Government of the Netherlands then referred the case to the Federal Tribunal, which finally ruled on 20th July 2008 by partially accepting the appeal by the Government of the Netherlands and by referring both parties "dos-à-dos" (to split 50:50). Thus, MSF Switzerland has been ordered to pay the amount of EUR 270,000 plus interest to the Government of the Netherlands.

A decision taken at a meeting of the International Council of MSF in November 2004 agreed that MSF Switzerland would not bear the whole financial burden resulting from this litigation. As such, the whole International movement shared these costs. The expenses are booked in Management, General & Administration in these combined financial statements.

As part of our effort to guarantee independence and strengthen our link with home societies, we have been striving to maintain a high level of private income.

Funds coming from non public institutional sources represented 90.00% of MSF total income in 2008. More than 3.7 million individual donors and private funders made this possible.

Expatriate staff	2,029	1,994
National staff	23,944	22,354

Field positions **25,973** **24,348**

Programmes relate to the aid projects undertaken by MSF and include the direct expenses incurred in the different countries of intervention. Logistics satellites' activities represent the indirect costs dedicated to the projects and associated with the delivery of emergency relief supplies.

For the year 2008, 429,233 thousand euro were spent in direct connection with the projects. The activities of the logistics satellites stood at 11,441 thousand euro.

These expenses were funded by 63,923 thousand euro coming from public institutional bodies, the balance being funded by unrestricted and restricted private funds.

The difference of 3,791 thousand euro between public institutional income as stated in the statement of financial activities and the amount mentioned above represents the funding of expenses and activities directly undertaken at headquarters level.

Staff information is expressed in full-time equivalent. When full-time equivalent cannot be provided, an average number of people is taken into account.

Figures for the previous year are presented in total for comparative purposes. They are not presented in the following pages for the different countries/regions of interventions because of the emergency nature of MSF's action.

5 OTHER INFORMATION

5.1 Commitments

Legacies and bequests

Unrestricted legacies and bequests are accounted for upon realization (i.e. on receipt of cash). At the end of the current year, an estimated amount of 30,774 thousand euro has not been realized and is therefore not included in the financial statements.

Grants

Some of the programmes are partly financed by public institutional grants. These grants may cover a more than one-year period and may not match with the financial year.

The following disclosure presents the amount that MSF has committed to spend according to proposals agreed by the different bodies.

In thousands of euros

	2008	2007
ECHO and EU institutions	1,667	1,101
UN institutions	723	182
American governments	115	265
Asian governments	-	-
EU European governments	1,290	366
Non EU European governments	136	-
Oceanian governments	-	-
Other governments	-	-
Remaining committed amount to spend	3,932	1,914
Other commitments		
Guarantees given	4,188	3,785
Mortgages & collaterals given	-	-
Foreign currencies term. purchases (given)	-	-
Other off balance-sheet commitments given	3,093	5,051
Off balance-sheet commitments given	7,281	8,835

Guarantees given refer to loan agreements for 3,530 thousand euro, to rental contracts for 603 thousand euro, and for other purposes for 55 thousand euro.

Other off balance-sheet commitments given mainly relate to rental contracts for office buildings.

In addition, MSF participated to the establishment of the Drugs for Neglected Diseases initiative (DNDi) with six other organizations: five public sector institutions - the Oswaldo Cruz Foundation from Brazil, the Indian Council for Medical Research, the Kenya Medical Research Institute, the Ministry of Health of Malaysia and France's Pasteur Institute - and one international research organization, the UNDP/World Bank/WHO's Special Programme for Research and Training in Tropical Diseases (TDR), which acts as a permanent observer to the initiative.

DNDi became a legal entity in July 2003 and MSF was one of the founding partners of the DNDi. MSF's objective in being involved in the creation of DNDi was to help create an R&D initiative for neglected diseases which in time would be self financing and in a position to work independently of MSF. Accordingly, MSF committed itself to an initial involvement that was limited to five years. A second period of support has been agreed, this is a period of six years (until 2014). During this period MSF will assist both financially and with ongoing DNDi research and delivery of new treatments. Financial support is limited at a maximum of 3% of the total MSF annual expenditure.

5.2 Staff figures

International Departures to the field

In full time equivalent

	2008	2007
International departures (total for the year)	4,617	4,134
Medical pool	1,052	1,117
Nurse and other paramedical pool	1,452	1,303
Non-medical pool	2,113	1,714

First time departures (full year)

	2008	2007
First time departures (full year)	1,142	1,152

Positions in the field

In full-time equivalent

	2008	2007
Total field employees	25,973	24,348
National staff	23,944	22,354
International staff	2,029	1,994

Positions in the headquarters

In full-time equivalent

	2008	2007
Total HQ employees	1,732	1,649
• Social mission	1,015	981
• Fundraising	289	251
• Management, general and administration	429	417
Volunteers	87	95
• Social mission	25	39
• Fundraising	24	26
• Management, general and administration	20	22

NB: For volunteers in the headquarters, the average number of people is taken into account when full-time equivalents cannot be provided.

Headquarters remunerations policies

The gross salaries presented below are based on the policies of the different MSF entities. They are presented in local currency and depend on the cost of living in the different countries where the entities are established. (next page)

2008 for the position of

5.3 Subsequent events

On 4 March 2009 the Government of Sudan ordered MSF-Holland and MSF-France, together with 12 other international NGOs, to immediately stop its relief activities in Darfur. All international staff were expelled from the country and all of the assets of the organizations were immediately seized by the Government of Sudan.

The events do not affect the 2008 balance sheet. All stocks and inventories are expensed as soon as they are shipped to projects. However, the loss of assets that otherwise would have been utilized for the realization of the objectives of the projects is estimated at between 3m and 3.5m EUR. The bank accounts held in Sudan have been frozen, with balances of 0.5m EUR. The present status of those accounts is unclear. No provision has been made in the 2008 financial statements for the possible writing off of bank balances.

The expulsion has resulted in significant financial commitments including those related to labour rights. The financial commitment is estimated to be between 1.6m and 3m EUR. No provision has been made in the 2008 financial statements for these commitments as they are resulting from subsequent events.

ABOUT THIS PUBLICATION

Editor

Djamila Mili, International Finance Coordinator together with Suneeta Adusumilli, Interim International Finance Officer and Tory Godsai, Field Financial Coordinator

Drukkerij Mercurius, Wormerveer, The Netherlands

Médecins Sans Frontières (MSF) was founded in 1971 by a small group of doctors and journalists who believed that all people should have access to emergency relief. MSF was one of the first non-governmental organisations to provide urgently needed medical assistance and to publicly bear witness to the plight of the people it helps.

Today MSF is an international medical humanitarian movement with national sections in 19 countries. In 2008, over 26,000 doctors, nurses, and other medical professionals, logistical experts, water and sanitation engineers and administrators provided medical aid in over 65 countries.
